

# Meet a Member of the Bramco-MPS Team

Meet Bramco-MPS Territory Manager Tom Bryja. Tom joined the Bramco-MPS team in December 2018. He works out of the Brandeis Machinery at the Indianapolis, Indiana location.

Tom started his career in the construction/aggregate industry in 1998, selling limestone and trucking in Northwest Indiana. In 2000, he moved into sales management, expanding the territory he covered from the northwest quadrant of Indiana to much of central Illinois.

After graduating from the University of Illinois at Urbana-Champaign, Tom held a few different positions at St. Rita High School in Chicago, including English teacher, Assistant Director of Development and Alumni Relations, and Director of Admissions.

Outside of work, Tom enjoys reading, performing improv comedy and taking long bicycle rides — on the road and on the trails — with his wife and friends.

***"I chose Bramco-MPS because of the people. Bramco-MPS and Brandeis Machinery people serve, support, and respect each other; they embody trust. I enjoy working with people who care about each other as much as they do about the bottom line."***
